We Can Help You

Research shows that patients come to the hospital for treatment of an illness. However, many times the illness is connected to other problems they may have with housing, finances, employment and benefits. Helping to fix the social and life issues you face at an earlier stage may help prevent costly and intensive medical treatment later on.

Who We Are

We want to help you and your family stay healthy. Your team of health care providers at Morton Hospital includes an attorney from South Coastal Counties Legal services who understands the laws and regulations that protect your health.

If you qualify, you can receive FREE legal assistance to identify and fix problems that may improve your health and reduce the need for you to seek medical care.

Getting Help is Easy – Take the First Step!

Tell your doctor, nurse, social worker, case manager or the Emergency Department patient liaison that you would like to speak with the MLP Attorney.
